7 PM · DECEMBER 14

[WWW.FARMGATETIMEDACTIONS.CA](http://WWW.FARMGATETIMEDACTIONS.CA)

welcome

to the our New Generation Female Sale.  
Mar Mac Farms is proud to be a 5th Generation Family Farm, breeding Angus Cattle for 68 years and Simmental Cattle for 47 years.

What a great time to be in the livestock industry. As I sit down to write this welcome the calf market is experiencing new highs and cull cows and bulls are worth more than ever before. After this fall there should not be a bad uddered or bad footed cow in the country.

Two years ago we dispersed our Black Angus cow herd to reduce our work load. This spring at breeding time we discovered that we were breeding very close to the same number of females. It was then that we decided that we would offer our entire pen of bred heifers this fall with nothing held back. You will find females in this sale that represent cow families that have been very influential in our program. You will see a few choice lots where the buyer will have their choice and we will keep the other one to keep those cow families going.

Our goal is to produce predictable, functional cattle that work in the real world. We do not pamper the cows. They graze on corn and hay till January; then are expected to calve on their own and rebred while being fed a silage TMR Ration. Our cowherd is culled annually on feet and legs, performance, disposition, and fertility. If they do not measure up they are sold. We choose our herd sires based on performance, ease of fleshing, docility and structural soundness. Our bloodlines have been well represented in many breeding programs.

An added feature is groups of Commercial Red and Black females bred to calving ease bulls. Check all the lots out on video in early December.

This year's sale is a Farm Gate Timed Auction to help reduce our workload. Stop in any time to view the offering or join us at our open house Dec 12-14 from 10 am to 6 pm. If you would like to come any other time just give us a call, we love to show people our cattle.

If you have any questions, please feel free to call or talk to us or the sale consultants, they have seen the heifers and would be happy to help you out.

Special thank you to everyone who takes time to view our Mar Mac Program or come for herd tours, we really appreciate your interest in our program. Special thanks to our family for all their hard work and dedication to our farming operation, it takes a team to make these events happen.

These females are going to be a hard group to part with as many top genetics in each and everyone of them. Here is a unique opportunity for you to select females that have the opportunity of becoming herd builders in your program.

# Red Angus Herd Sires

**RED COCKBURN  
SIMPLIFY 1104**  
-2245233-

This exciting young sire is the service sire to several of the Red Angus females. You must admire his phenotype, calving ease, and beautiful front end. His dam goes back to the Cockburn Cora family who have been top producing cattle in the Cockburn program. We are impressed with the birth weight of his first offspring and yet the strong quarter and style to his calves. This bull has a lot of future ahead of him.

**RED MAR MAC  
LINCOLN 106H**  
-2141405-

We are very proud of this individual that sold in our 2021 Bull Sale for \$ 30,000 to Six Mile Ranch and McQuantock Ranching. He has done a tremendous job of breeding bulls and females. The High Selling bull in 2023 was a Lincoln son going to Double F Cattle Co. Watch for his sons in the 2024 Bull Sale

#### CREATE ACCOUNT:

All new bidders to DLMS FarmGate Timed Auctions must create a timed auction account to be able to bid on this timed sale. This log is different from your DLMS.ca live sale account.

#### CREATING A NEW ACCOUNT:

Click Register on the top right corner fill in your account info, log in to verify your phone number and you are ready to roll with DLMS Farm Gate Timed Auctions.

#### NOTIFICATION SETTING REMINDER:

All bidders please remember to **activate your email and text notifications to receive out-bid notifications** for lots that you are bidding on. To turn on notifications go to the top right corner of the screen go to My Account, click on Notifications, confirm you have check marks beside your EMAIL & PHONE notifications and then click save.

#### CLOSING:

At closing time of the sale the entire sale will extend bidding if a bid is placed on any lot in the sale. Any bid received after close time will extend the sale by the time listed on each sale. When no bidding occurs for the extended time the computer will declare the sale finished.

#### INVOICING:

Following the sale the **seller will invoice all buyers** in the sale, please contact the seller with questions or to arrange delivery, pick up or shipping of your purchases

#### DELIVERY:

Buyer is responsible for delivery. Mar Mac will assist in arranging delivery if needed. US buyers will be responsible for brokerage fees.

#### FOR MORE INFO:

Or assistance with bidding contact

Wow, these Lincoln daughters are really catching everyone's eye. 42K and 77K are a choice lot, you select one and Mar Mac will retain the other. 42K is dark cherry red, long bodied, super feminine and lots of depth of body. 42K's dam is a stout made Riddler dam of the **Fanny Cow Family** who puts everything into her calf. With some outcross genetics, here is a female to build a program around. Sells bred to Hedge Fund, a Profitbuilder son who is a big time calving ease sire and sire to a strong group of heifer calves in our replacement pen.

AI bred to LSF Hedge Fund 7017E - 3723117 - April 20. Preg tested safe.

**lot 2**

The Ripzone daughters have made a name for themselves with picture perfect udders, the mother cow look and loads of depth and capacity. This female is a prime example. Her dam was selected out of the Blake's Dispersal and originated from Kuntz Farms, a big powerful female that is as easy keeping as they come. Her full brother will be a feature in the 2024 Mar Mac Bull Sale. We like to use proven calving ease sires on our heifers, so we mated her to the original Franchise bull. Here is an amazing young female who could be your next foundation female.

**AI bred to Red 9 Mile Franchise 6305 - 2017139 - on April 20. Preg tested safe.**

## INVOICES:

Invoices will be emailed out the day following the sale or mailed to purchasers upon request it be mailed. Payment to Mar Mac Farms must be made by cheque, Bank Transfer or e-transfer before any of the cattle leave the farm.

## INSURANCE:

As soon as the animal is sold, it is your risk as the buyer of that animal. Insurance will be available by Keystone Livestock Services (Lois McRae) 204-728-3058 or 204-573-5192

## BREEDERS GUARANTEE:

All serviceable females have been pregnancy tested by an accredited veterinarian giving the estimated length of gestation. As we used calving ease sires, they are usually short gestation so watch your females closely.

## HERD HEALTH:

Mar Mac is an Express Verified Herd. At weaning all the calves get Pyrimid 5 presonse and Blackleg Vaccine. Before breeding out herd is vaccinated with Express 5. All heifers have had Ivomec and first shot of Scour Bos 4

All the purebred heifers have been DNA tested and purchasers will be supplied with a registration paper after payment has been received.

## DELIVERY:

Mar Mac Farms will help each purchaser with arranging delivery on their purchase as soon as possible after the sale once payment has been made. As these are bred heifers to calve early in 2024, we would like them to leave with in a week after the sale and before the holidays.

lot **16**

When we dispersed the Black Angus, unfortunately **Valley Blossom Annie K 224Y** had injured her hip so we kept her over to get the offspring and then was sold to market. Her progeny were top sellers in our 2021 Black Angus Dispersal. This is a powerful Attractive female who is out of that Cow Family has some real potential for the new buyer. Attractive is a popular Semex sire that has left a strong group of progeny in North America.

Bred to the calving ease sire, Colossal this is a female loaded with genetic potential.

AI bred to Musgrave Colossal 137 - 2021884 - April 20. Preg tested safe.

COLE CREEK CEDAR RIDGE 1V  
MAR MAC BRIDGET 13B  
MCRAE'S BRIDGET 33U\*

Wow, you can not write a pedigree much better. The **Bridget Cow Family** was extremely well received in our Black Angus Dispersal, and this was to be the only one not offered for sale as a few years ago she had foot rot, and one toe was cut off. We did not want to offer a female with this, so we have kept her and here is her daughter, a Schiefelbein Attractive female going back to Cedar Ridge, Makin Waves and Bridget.

AI bred to Musgrave Colossal 137 - 2021884 - May 6. Preg tested safe.
