october 11th, 2025 | 5PM

CHINOOK

HARVEST SALE

Location CD Land and Cattle - Taber, AB

Welcome

to the Chinook Harvest Sale which is shaping up to be another high quality sale brought to you by high quality breeders that are excited about the Angus breed and what it has to offer. 2025 is proving to be a very exciting time with new highs being set in the cattle industry every day, feed is plentiful and very cost effective. One thing that remains a constant is the fact that there is always a market for quality cattle! But, when you get to the high markets the level in which the high quality come in demand is at another level, quality always pays. With the cow herd at a record low not seen in decades and the look to expansion doesn't appear to be on the horizon just yet makes for an interesting scenario. The opportunity to have a higher quality product and a higher percentage of the cattle in the system is present, droughts make for good herds and the lesser quality cattle have found their way to town. With that this gives you the buyer to keep the bar up on raising the good ones for a healthy bull market and we will see how far these good commercial markets become for bred replacement females this fall. ***If you've made it this far in the cattle business be sure to hold your head up high for being in the business and reaping the rewards, thank you for your dedication and supplying this great industry with the greatest product in Canada.....BEEF!***

The sale boasts an array of genetics and breeding options for you, heifer calves that could stand some competition, bred heifers carrying the next piece in the genetic puzzle as well as some exciting semen and embryo opportunities going forward. Be sure to stop by and view the sale cattle either on Friday, October 10th or at anytime on Saturday leading up to the sale and see what this group of consignors have brought to town, you won't be disappointed!

See you sale day!

Shane Castle

DUTCH AUCTION PROCEDURE

- ♦ The final bid for the Donation Heifer in each round will denote the amount of that bidder's donation. Ex:
Round 1 – Final Bid is \$300 to John Doe. John's donation is \$300.
Round 2 – Final Bid is \$250 to Tom Jones. Tom's donation is \$250.
Round 3 – the heifer is re-auctioned on a downward scale until no further bids are received.

- ♦ Each \$10 purchased (donated) represents one chance in the draw. Ex: John Doe has 30 chances, Tom Jones has 25 chances and so on down the scale.
- ♦ One ticket for every \$10, bearing the contributors name, will be entered in the draw.
- ♦ At the end of the sale, one ticket will be drawn with that person winning

DUTCH AUCTION DONATION HEIFER

FSF 501N

DONATION - FLEMING STOCK FARMS

Fleming Stock Farms & the Fleming Family are proud to donate the Southern Alberta Angus Club's Donation Heifer for 2025. We have had a relationship with SAAC and its members for decades when we first facilitated the members Angus Bulls at the Fleming Bull Development Center here at our Granum location starting in the early 80's. Back in the day very few Angus Breeders had their own production sales and SAAC was the

group who promoted and sold bulls as a collective group. We ourselves have also been members for decades and we are now into our 3rd generation of Angus Enthusiasts. Prior to feeding bulls for the members of SAAC, Duncan worked with and traded help with countless Angus Breeders while running his Fleming Fitting Service. SAAC was and still is today, the driving force behind the Chinook Sale. Again, in the early years very few Angus Breeders had female production sales and SAAC seen a need to support and promote the Angus females of its members.

Over the decades SAAC and its membership have been the driving force behind Angus promotion in Southern Alberta. We have supported and have been a

part of SAAC's great Angus programs, promotions and fellowship over the years in programs such as; Angus Tours, Angus Field Days, SAAC Bull Tests & Sales, SAAC Angus Queen program, the Lethbridge Exhibition Fall Show, the great Steak Fry's at the Southern Alberta Auction Markets in the Fall Run, decades of Chinook Sales, SAAC Cowboy Classic Golf Scramble, the Donation Heifer Fundraiser, SAAC collaborates with CAA & AAA to facilitate the Medicine Hat Pen Show Steak Tasting, hosted the CAA Convention in Lethbridge, participation in the Canadian Angus Foundation Legacy Sale, various events & programs of the Alberta Angus Association & the Canadian Angus Association, the SAAC AGM and Annual Banquet & Christmas Silent Auction. SAAC has been dedicated over the years in growing the Angus Breed with various youth programs through their support such as; the Junior Discount Program, support for the Alberta Junior Angus Heifer Show in Bashaw, the Chinook Junior Stock Show in Claresholm, the Taber Junior Show and SAAC's commitment to donate annually to the CAA Foundation's Dick Turner Scholarship Fund to keep the scholarship alive in perpetuity. Over the decades our Southern Alberta Angus Youth have gone on to be the breeders and leaders of today. It is our families wish through this year's donation heifer, "to ensure the Angus Youth of today with SAAC's support, will be the breeders & leaders of tomorrow".

Fleming 501 Flora is a fancy feminine heifer calf that will make a great addition to anyone's herd. Her dam Fleming 141 Flora is a functional broody female. 501 is sired by Kesslers Commodore 6516 who is the sire of our consigned choice lots in this sale. Kesslers Commodore 6516 is an outcross pedigree that ranks high for weaning weight, yearling weight, carcass merit, scrotal, calving ease, maternal calving ease & milk. A heifer calf full of positive traits!!

Please support the 2025 Southern Alberta Angus Club's primary fundraising project through the Donation Heifer Program. Through this fundraiser it allows SAAC to continue to promote Angus, support Angus at events, support Angus youth and facilitates fellowship amongst Angus Purebred & Commercial Breeders.

Dutch Auction Donation Heifer & Choice Lot

FSF 409M

◆ CHOICE LOT

LOT 1A - FLEMING STOCK FARMS

Offering choice on these Full Sisters – Lot #1A FSF 409M & Lot 1B FSF 505N, out of Fleming Miss Essence of Crank and Kesslers Commodore 6516. You always want females in your herd that out produce themselves and Fleming Miss Essence of Crank is doing just that. A moderate female who is feminine, structurally correct, good uddered and who gives her all to her calves. Their sire, Kesslers Commodore 6516 is an outcross pedigree that ranks high for weaning weight, yearling weight, carcass merit, scrotal, calving ease, maternal calving ease & milk.

409M will make a feminine picture-perfect brood cow, that is flawless from the ground up. She is free moving, big footed and structurally correct. We love the natural power, stoutness and the overall dimension that she offers from every angle of evaluation.

◆ Exposed to to Fleming Executive Decision 405 - April 9, 2025 –June 30, 2025
Observed bred May 19th, checked favorable to that date.

409 is very docile and was shown successfully as a calf at multiple junior shows. Perhaps the most exciting part of this bred female is the calf she is carrying, out of “Fleming 405 Executive Decision”. 405 is a powerful Executive Decision son that we retained out of our 2024 Medicine Hat Reserve Champion Pen of 3 Bulls.

FSF 505N

Sire of Lot 1A & 1B

◆ CHOICE LOT

LOT 1B - FLEMING STOCK FARMS

505N is a well-balanced fancy sweetheart of a heifer with lots of eye appeal. She is a massive bodied, wide pinned female that is bold and robust in her makeup. We love the extreme stoutness, mass and dimension that she possesses while maintaining a very feminine and lady like look from the side. 505 is a structurally correct, sweet fronted female that would make great addition to your herd as well as an excellent show prospect.

LOT 2 - BROOKE FAMILY FARM

Brooke Pride 2N combines power and femininity in a balanced, eye-catching package. With good footing, length of spine, and a nearly show-ready body style, she carries the design and presence to compete now while offering long-term value as a productive female.

CBC 153N

LOT 3 - STORNAWAY ANGUS

A fancy in dam coupon coming out of the Yarrow Creek Dispersal, Gable, Reslient both add tremendous maternal influence to this heifers future. As you can see her dam is a highlight type cow that you can never have to many of that type. Be sure to check out the video on this heifer, she's worth the wait!

LOT 6 - ALLENCROFT ANGUS

A heifers first calf here and what a great job she did When you go through the pasture she is the one that always seems to catch your eye. On the dams side is a pedigree packed with great producing sires like Border Butte Blaster 305E and RB Tour of Duty 177, On the sires side Pine View Vezina is a stout deep easy calving bull we have used very successfully on both cows and heifers.

MRM 107N

LOT 7 - BAR DOUBLE M ANGUS

This heifer boasts more than a sterling pedigree but we will start with dissecting that first. Convoy was an embryo purchase we made which more than blew us away, in fact it was enough that Wheeler Stock Farm bought a share in Convoy to walk their pastures as well! We know all about Annie Oakley and with 51 progeny credited to date, that story will continue to unfold! The dam side of this calf yields the famous Blockanna cow family coming from Wilbar Farms which since coming to Bar Double M has been very productive! We not only want to buy the good cattle we want to sell the good ones too!

SLW 25N

LOT 8 - FIREWORK CATTLE CO

We are honoured to be participating in this year's Chinook Harvest Sale yet again! Our consignment this year comes from our most recent addition to our herd. We purchased the dam of this heifer calf at last year's Red Round Up sale from our friends at Reverse GC, and we couldn't be more ready for another exciting fall. Our heifer calf, Ginger 25N, comes from an exciting and proven pedigree. She combines the influence of the renowned Lauryn cow family from Ter-Ron with the strength of Six Mile's Stealth bull. Her sire is a calving ease specialist, previously acquired by Chelsea and her family from Watson, and has

proven his value in their program. Backed by exceptional genetics, strong foot structure, and impressive phenotype in a moderate frame, this heifer offers both style and function. are confident she will be a productive and valuable asset in any program.

TED 48N

**LOT 9
- LEEUWENBURGH ANGUS**

Our first time coming to the Chinook Sale with live cattle and we wanted to bring some heifers that will turn some heads. This Wick granddaughter will do just that, sharp in her lines, square on her corners and backed by a very nice 3 year old Slowburn daughter. This also showcases the maternal side of Slowburn who has set the bar in performance and foot quality with his sons and semen being in high demand!

**LOT 10
- LEEUWENBURGH ANGUS**

Another eye appealing Wick granddaughter out of a first calf heifer and what a job she did on this calf, her sire, Adrenaline 28J was a top seller a few years back to Dersta, Matejka and Falk. Right out of the replacement pen for a picture 7 days post weaning and looks the part in representing our style of females in balance and structure, that's how we like them. These heifers have a great disposition to them but most importantly will make productive cows!

LOT 13 - KOPPER LC RED ANGUS

Lady Bug is truly a doll. She is a March calf that has some nice EPD numbers going for her (if you use that tool). She is soft made and I can't wait to see how she turns out for her new owner. She goes back to one of our foundation cow families, Blades Miss Rambo 54N. Her elite dam (M' Lady) is a 4H alumni, that has been to 11 Outstanding in the Field learning days for grade 4 kids in the County of Newell. She has also travelled with her calf to the Strathmore stampede, to show a little "country in the city."

SCCA 67M

LOT 14 - SHILOH CATTLE CO

Lassie 67M is a strong framed, solidly structured female. The combination of her impressive sire, along with the balance, power and great udder structure of Dam, are sure to provide her with the tools to make a positive impact in any herd. She is bred to Red Ter-Ron Latigo 16L. Latigo's impressive muscle definition and outstanding foot structure made him a must have in our bull battery.

♦ Exposed to Red Ter-Ron Latigo 16L - Vet checked safe to Mid January

Red Ter-Ron Latigo 16L

Service Sire of Lot 14 & 15

SCCA 82M

LOT 15 - SHILOH CATTLE CO

The Rosette cow family has been instrumental in the success of our Red Angus herd here at Shiloh Cattle Company. This well balanced female has a kind disposition and is as sure footed and strong topped as her Dam. Her Sire, a direct son of Red Six Mile John Wick, has made a huge impact in our recent calf crops with multiple sons and daughters becoming extremely popular with buyers in our Trendsetter Bull and Select Heifer Sale over the last few years. She is bred to Red Ter-Ron Latigo 16L. Latigo's impressive muscle definition and outstanding foot structure made him a must have in our bull battery.

♦ Exposed to Red Ter-ron Latigo 16L - Vet checked safe to calve Mid-January

**LOT 16 -
KOPPER LC RED ANGUS**

This is my absolute favourite bred heifer. While we were going through selections, we let Shane have his pick — and he picked her. I know everyone says, “I should’ve hidden that one” or “I should’ve just said no” — and maybe I should have. But I believe I can build another one like her... eventually. Her dam is another 4-H alumni — a female I bought back from the member after COVID. Her sire, Jackal, is just like I said in the notes for 610N: a real gentleman, and one that was shown as a calf by Shiloh Cattle Company.

♦ AI to TWG Tommy Jack 166A, Apr 4th Exposed to Red Allison Kershaw 188M Apr 14th-June 10th Vet checked July 28th, Favourable to AI

KPR 49M

**LOT 17 -
KOPPER LC RED ANGUS**

Over the years, we’ve invested heavily in building cow families to create consistency — and this heifer is another strong example of that effort. She’s a deep red, deep-sided female, much like her black-hided dam. Her maternal line traces all the way back to one of our foundation cows, 81N. But it was 81N’s daughter who truly stood out — a female that stamped her daughters with quality you could hang your hat on. This heifer represents that legacy. She’s one of four direct maternal siblings, with six more females also descending from 49R — the calf that was at side when 81N joined our program.

LOT 18 - EASY RAY ANGUS

A really nice, growthy heifer that carries the Showman and Acclaim bloodlines in the pedigree. She is a +28 for Milk putting her in the top 15% and top 20% for birthweight. Her dam has been an excellent producer for us with 11 calves born here, 7 females have been retained in the herd.

♦ Exposed to Allencroft Tanker 01 469, Border Butte Reckoning 358M, Echo Rock Gunner 4L, Heinz Glacier 4001 April 1st to May 15th

EA 207M

LOT 19 - EASY RAY ANGUS

These Showman heifers really come to the top and expect this female to leave you a strong set of bulls with her combination of growth and milk, which she is in the top 3% for that category. Having a shot of Blaster and Tiger back in the pedigree means you should keep every daughter born.

♦ Exposed to Allencroft Tanker 01 469, Border Butte Reckoning 358M, Echo Rock Gunner 4L, Heinz Glacier 4001 April 1st to May 15th

TED 55H

**EMBRYO LOT 22
- LEEUWENBURGH ANGUS**

36H has started hitting homeruns since she was a first calver, to date we have 15 progeny from her including a homerun on her 3rd calf, that bull was named Instinct 36L who after the dust settled found his new home to be Golden Sunset Ranch at \$54,000 as one of the talked about bulls from the 2024 bull sale season. We have a set of ET calves from 33H this summer that are exceptionally good. Take your choice on the matings, the \$160,000 Premium bull whose first set of calves will make some noise or the Cartel 139M bull who is backed by Slowburns dam, plenty of power in these genetics offered.

ROBN 1T

SEMEN LOT 25 -
CACTUS COULEE RED ANGUS

Redman will go down as a foundation sire setting the bar for his light birthweight abilities and the maternal side of his daughters. Couple that with an outcross pedigree and there is plenty of potential today yet as an outcross sire. Not a lot of semen was available on this breeding giant, this might be one of your last opportunities.
